

VEA Rep Council gives the thumbs up! Bargaining Team Appointments

The VEA Standing Rule 302.3 outlines the role and composition of the Professional Negotiations Commission (aka Bargaining Team). This team is assigned the responsibility and duty to develop and present proposals and counter proposals to representatives designated by the district. The Bargaining Team is appointed by the President with the consent of the representative council.

Prospective team members complete an application to assist the President in making the initial selection. The contract limits the team size to five (5) persons, however all interests are represented at the table through member feedback and focus group outreach. Your 2021-22 Interim bargaining team is:

Jamie Anderson (Primary)
Sunny Selders (Intermediate)
Keith Lloyd (Middle School)
Andrew Wicklas (High School)
Amy Spofford (Special Education)
Kari Van Nostran (President)
Page A. Todd (VEA Executive Director)

VEA Focused Survey – Respond TODAY

The ink may still be damp on the full contract that was ratified in August, but we are embarking on the work around the spring openers. Both VEA and VPS can present THREE non-monetary proposals for consideration.

Thank you to the VEA membership for completing the interim bargaining survey in January! The feedback gleaned included some big ideas for consideration. Your VEA team would like additional context from membership on some of these topics through a focused survey. **Please visit the survey and provide your feedback by noon on Friday, March 11th.** This survey will take approximately 11 minutes to complete. Having a full membership response will bolster your team's arguments at the table.
